

## **Our time at 2981 Holyrood Drive**

*When we moved here we said that we wanted to be in a place that was beautiful and inspiring... and we got it. This home feels like another world but is yet so accessible to the restaurants/stores/services of Montclair just 6 minutes down the hill, and to our other favorite areas of Oakland and Berkeley.*

*The first thing we fell in love with was the level-in entry and the outdoor living areas and overall access to the outside. We've loved the neighborhood and especially the neighbors. We so appreciate the functionality and efficiency of the room layouts. It's been so easy to accommodate our office space, guests, and all of the gear we need for our outside interests.*

*Entertaining is a cornerstone of our lifestyle. And entertaining in this home has been brilliant - breakfasts out on the back deck among the trees, evenings on the front patio and around the kitchen island. On occasion, when there is fog, mist and rain, it's magical. With the overhangs it's so easy to be outside to enjoy it all, and with windows everywhere we can also enjoy it from the inside.*

*We've enjoyed our time as the steward of this home immensely. We've put our soul into making it a warm inviting place for friends, family and guests to gather comfortably. While we are departing to another beautiful part of the world, we find comfort in knowing that the next owners are in for a wonderful life experience during their time in this wonderful space.*

*Carol & Jack*
